

## PRESS RELEASE

### Highlighter meets geometry

The STABILO swing cool Colormatrix Edition uses clear shapes and vivid colors to create brilliant highlights.

**Abstract patterns, clear lines and contrasting colors – geometric shapes in combination with colored surfaces are eye-catching, extravagant and absolutely in trend.**

**Now, the new STABILO swing cool Colormatrix Edition is making desks more dynamic. Geometry – a must in maths lessons, a must-have in fashion!**

#### Lines, patterns and contrasts

Graphical forms and geometric patterns are in trend. They come in all shapes and sizes. Circles, triangles, squares and diamonds.

The colorful triangles on the STABILO swing cool Colormatrix join together like puzzle pieces – clear edges and color shading give the pen added vibrancy. The trendy pens, available in six colors in the popular geo style, are the ideal companions for fashion-conscious school pupils and trendy students.

Thanks to the space-saving, flat shape, the useful pocket clip, the proven dry-out protection (up to four hours) and the six fluorescent colors with two line widths in one, you can not only highlight in style, but also with power – a real all-rounder!

The STABILO Colormatrix Edition is limited – and will make you fall in love with clear lines and sharp edges!

**More than just a highlighter**

STABILO highlighters are cult items and trusty companions rolled into one. With over 160 years of experience, the long-established company's pens not only fit the hand perfectly, but are also trend-conscious and expressive.

The STABILO swing cool Colormatrix Edition is the ideal fashion accessory for everyday artists with a colorful lifestyle.
